## **NOTE TO SCHEDULE: MARITIME TRANSPORT SERVICES**

### DEFINITIONS

1. Multimodal Transport Operator: the person on whose behalf the bill of lading/multimodal document evidencing a contract of multimodal carriage of goods, is issued and who is responsible for the carriage of goods pursuant to the contract of carriage.
2. Cabotage: for the purposes of this Schedule only, cabotage is defined as the transportation of passengers or goods between a port located in Australia and another port located in Australia and traffic originating and terminating in the same port located in Australia.
3. Offshore Transport refers to shipping services involving the transportation of passengers or goods between a port located in Australia and any location associated with or incidental to, the exploration or exploitation of natural resources of the continental shelf of Australia, the seabed of the Australian coastal sea and the subsoil of that seabed.
4. Other Forms of Commercial Presence for the Supply of International Maritime Transport Services: for the purposes of this Schedule, means the ability for international maritime transport service suppliers of other Parties to undertake locally all activities which are necessary for the supply to their customers of a partially or fully integrated transport service, within which the maritime transport constitutes a substantial element. This commitment shall not be construed as limiting in any manner the commitments undertaken under the cross-border mode of delivery.

These activities include:

- marketing and sales of maritime transport and related services through direct contact with customers, from quotation to invoicing, these services being those operated or offered by the service supplier itself or by service suppliers with which the service seller has established standing business arrangements;
  - the acquisition, on their own account or on behalf of their customers (and the resale to their customers) of any transport and related services, including inward transport services by any mode, particularly inland waterways, road and rail, necessary for the supply of the integrated service;
  - the preparation of documentation concerning transport documents, customs documents, or other documents related to the origin and character of the goods transported;
  - the provision of business information by any means, including computerised information systems and electronic data interchange (subject to the provisions of the Annex on Telecommunications);
  - the setting up of any business arrangements (including participation in the stock of a company) and the appointment of personnel recruited locally (or, in the case of foreign personnel, subject to the horizontal commitment on movement of personnel) with any locally established shipping agency;
  - acting on behalf of the companies, organising the call of the ship or taking over cargoes when required.
5. International Rental of Vessels with Crew: rental and/or leasing services of all types of sea-going vessels with crew (such as tankers, bulk dry cargo vessels, cargo and freight vessels) for the purpose of international trade.
  6. Maritime Cargo Handling Services: activities exercised by stevedore companies, including terminal operators, but not including the direct activities of dockers, when this workforce is organised independently of the stevedoring of terminal operator companies. The activities covered include the organisation and supervision of: the loading/discharging of cargo to/from a ship; the lashing/unlashing of cargo; and, the reception/delivery and safekeeping of cargoes in the wharf area before shipment or after discharge.

The organisation and supervision includes the arrangements for (1) engaging skilled labour (dockers), (2) using all the necessary equipment for on-board or shore use and the appropriate storage space, whether by ownership, rental or otherwise, (3) the checking of parcels and markings, the weighing and measuring of cargo (upon request of the owner), and (4) the administrative duties as well as the responsibility related to the services.

Container terminal operators can furthermore be appointed for stuffing/stripping containers and e.g. the survey and supply of electricity to containers.

7. Maritime Freight Forwarding Services: the organisation and monitoring of shipment operations on behalf of shippers, through the acquisition of transport and related services, preparation of documentation and provision of business information.
8. Customs Clearance Services: activities consisting in carrying out on behalf of another party customs formalities concerning import, export or through-transport of cargoes, whether this is the main activity of the service provider or a usual complement of its main activity.
9. Preshipment Inspection: all services performed on a fee or contract basis involved in the verification of the quality, quantity, price (including currency exchange rate and financial terms), and/or the customs classification of goods to be exported. Does not include customs or quarantine inspection.
10. Maritime Agency Services: activities consisting in representing, within a given geographic area, as an agent, the business interests of one or more shipping line or shipping companies, for the following purposes:

  - acting on behalf of the companies organising the call of the ship or taking over cargoes when required.

#### Note on Liner Shipping

Part X of the Trade Practices Act 1974 provides for exemptions from Australian anti-trust legislation so that liner shipping conferences can operate in and out of Australia. Part X requires that every ocean carrier who provides international liner cargo shipping services to or from Australia shall, at all times be represented by a person who is an individual resident in Australia (but not necessarily an Australian citizen) and has been appointed by the ocean carrier as the ocean carrier's agent for the purposes of Part X.
